Notice to Authority, Uses Allowed Without a Permit

To: SDCWA, Director of Engineering

Dear Sir or Madam,

We purchased our home at 1114 Hubbard avenue in Escondido in July of 2014. At that time, we asked that the water authority mark the easement for us so that we can keep the property in compliance. We really appreciate that Tad Brierton and crew came out and did that for us. Thank you.

We are providing notice of our intent to exercise our reserved right under Section 7.00.050 of the SDCWA Administrative Code.

Under this notice, we are generally intending to create vegetable and flower gardens, lawns and ground cover. We will be exercising rights in section (b), sub-sections 1, 2, 3, and 4. We will also utilize existing irrigation water lines (sub-section 9), re-configured for our garden areas, with the shut-off valves indicated on the attached diagram.

In re-reading the administrative code text, we realized that we missed the 10 calendar days' notice text, and hope that will not be an issue. If so, please let us know.

Dwayne and Cristina Domi
1114 Hubbard Avenue, Escondido CA 92027
